-  PROPOSED EVERGREEN TREE
-  PROPOSED DECIDUOUS TREE
-  PROPOSED FEATURE TREE
-  PROPOSED CONCRETE PAVEMENT
eg EXPOSED AGGREGATE CONCRETE WITH A ROUNDED PEBBLE AGGREGATE
-  PROPOSED 1:21 WALKWAY WITH LANDINGS AND KERB RAILS
eg EXPOSED AGGREGATE CONCRETE WITH A ROUNDED PEBBLE AGGREGATE
-  PROPOSED 1:15 RAMP WITH HAND RAILS AND KERB RAILS
eg EXPOSED AGGREGATE CONCRETE WITH A ROUNDED PEBBLE AGGREGATE
-  PROPOSED CONCRETE STAIR WITH TACTILE INDICATORS TO TOP AND BOTTOM AND HANDRAILS TO BOTH SIDES
-  PROPOSED CONCRETE AND TIMBER SEATING TERRACES nom 450 HIGH
-  PROPOSED MULTI LEVEL DECK WITH SITTING EDGES nom 450 HIGH
-  PROPOSED NEW BUILDINGS: RELOCATED CAFE AND NEW CHANGE FACILITIES
-  PROPOSED REMOVEABLE UMBRELLAS WITH LOUNGE FURNITURE
-  PROPOSED RETRACTABLE UMBRELLAS WITH SEATING PLATFORMS
-  PROPOSED LARGE FIXED SHADE STRUCTURES PROVIDE SHADE TO GRASSED BANK AND OVERFLOW SEATING FOR SCHOOL CARNIVAL DAYS
-  PROPOSED LARGE SOLID SHADE STRUCTURE PROVIDES SHADE UPPER LEVELS OF SEATING TERRACES
-  PROPOSED FIXED SOLID SHADE STRUCTURES WITH PICNIC SETTINGS IN THE AMPHITHEATRE AREA AND THE QUIET ZONE. THESE STRUCTURES MIGHT BE BOOKED DURING PEAK USE TIMES
-  PROPOSED LAWN AREAS
-  PROPOSED PLANTED GARDEN BEDS

- 1 Enhanced Water Play**
A new splash pad that is proposed to be double the size of the current water play area. The proposed design will include a range of exciting interactive water play features that are safe for children and close to all other outdoor amenities
- 2 New Cafe Area**
A new and improved cafe with covered access from the main building, more seating and a clear outlook across the outdoor area. The relocation of the cafe would allow for the new water play zone to be built in its current location.
- 3 New 'Quiet Pool' Area for Specialised Programs**
The current outdoor toddler pool (built in 1969) will be replaced with a heated 'quiet' 25 meter pool. The pool would be allowed for specialised programs to be conducted and provide a space away from the main area for users to retreat to.
- 4 Upgraded Social Zone for Community Gatherings**
Barbecues and a new amphitheatre style seating area near the water slide for social gatherings.
- 5 More Shade and Trees to Provide Protection from the Sun**
New shaded areas and tree planting around the outdoor area, including along the tiered seating zone and water play area.
- 6 Tiered Seating for School Carnival and Swim Meets**
Proposed tiered seating to be landscaped into the grass slope for use during race day meets, school carnivals and general use. Over 50 percent of this seating would be protected from the sun with new shade sails. Grassed areas will remain on the slope and in other parts of the outdoor area.
- 7 New Change Room and Toilets**
We're proposing to install a new communal change room space and four new accessible toilet cubicles (male and female)
- 8 Removal of the Diving Pool and Addition of Lounge Furniture**
Proposed removal of the diving pool constructed in 1969, due to its deteriorating condition and low usage rates. The location of the diving pool could be used to relocate the filtration and maintenance equipment for the 50 meter pool with decking above and sun lounge furniture around it.
- 9 Upgrade of the 50 Meter Swimming Pool**
The 50 meter swimming pool, also constructed in 1969, is scheduled to be replaced in 2024 to 2026 as part of a separate project. The pool will be upgraded so it complies with requirements for competition level swim meets and school carnival usage.
