MANNINGHAM CITY COUNCIL PUBLIC ROADS REGISTER

Declared Arterial Rural Roads

VicRoads is generally responsible for the roadway, roadside (including any ancillary area designated by VicRoads eg. rest stops, scenic lookouts), and any road-related infrastructure (eg. table drains, kerb & Channel) for the full width of the road reserve, other than service roads, off road bicycle paths and pathways, as generally shown on the Road Management Act Code of Practice for Operational Responsibility for Public Roads.

Council is responsible for service roads, off road bicycle paths, pathways, associated local signage, and underground drainage that is part of a municipal drainage scheme, in accordance with the Road Management Act Code of Practice for Operational Responsibility for Public Roads.

MANNINGHAM CITY COUNCIL PUBLIC ROADS REGISTER

VicRoads is responsible for all components of the declared arterial road that are provided for the operation of through traffic, as generally shown on the Road Management Act Code of Practice for Operational Responsibility for Public Roads. These include

- Any part of the roadway located 'kerb to kerb' that could be made available for through traffic;
- Shoulders (sealed or unsealed) where there is no formal designated parking;
- On-road bicycle lanes;
- kerb and channel, or table drains, adjacent to any part of the roadway that could be made available for through traffic;
- Drainage pits and underground drainage collecting runoff from through carriageway and associated junction pits in medians, outer separators and through carriageways
- All road markings on the through carriageways (but excluding parking bays);
- Plantation reserves where VicRoads holds the title;
- Guard fence where the guard fence is for the safety and protection of through traffic;
- Signs and delineation provided for the control and guidance of traffic on traveling along, or entering, the through carriageways of the arterial road (whether located in either the central median, outer separator or roadside), plus clearway signs;
- Central medians and any VicRoads assets or vegetation thereon, including pedestrian fencing and Tactile Ground Surface Indicators (TGSIs);
- All traffic signals and electronic traffic signs including variable speed signs,
- Other on-road electrical assets for traffic management on the arterial road; and
- Any ancillary area designated by VicRoads as the responsible road authority.

Council is responsible for all local components of the road system as generally on Schedule E of Manningham's Road Management Plan. These are:

- Service road traffic lanes and shoulders;
- Pathways outside of through carriageways and central medians;
- Indented parking bays and any other part of the roadway located 'kerb to kerb' that could not be made available for through traffic (being located either on the side of the road, in the outer separator or in the central median), and adjacent kerb and channel;
- Drainage pits and underground drainage outside of through carriageways or outer separators and underground drainage that is part of a municipal drainage scheme
- Off road bicycle paths;
- Off road furniture at bus stops;
- Road markings for all parking bays, plus road markings on service roads;
- Outer separators and roadside, including any council assets or vegetation planted thereon nature strips including vegetation;
- Local signage including street name signs, local direction signs, parking signs for the control of stopping or parking in accordance with Part 12 of the Road Rules (but excluding clearway signs), and advance warning (but not advance direction) signs on local roads;
- Pedestrian fencing outside of central medians;
- Tactile Ground Surface Indicators (TGSIs) in footpaths and kerb ramps and at bus stops (except at central medians); and
- Plantation reserves where council holds the title.

| RD57 | Bulleen Rd - Trinity School Entrance to Eastern Freeway | 645 | 22.8 | Asphalt | Arterial Highways Urban Roads | 1960-01-01 | | |
| RD58 | Springvale Rd - Eastern Freeway to Worrell St | 190 | 12 | Spray Seal | Arterial Highways Urban Roads | 1960-01-01 | | |

Link roads provide the main avenue of traffic movements within the municipality to the wider road network.

Collector roads distribute traffic between and through residential, industrial and commercial areas to the Arterial and Council Link road network.

Access roads provide predominately direct access for abutting properties.

The nominated Council (referred to above) is generally responsible for the following levels of service as part of an agreed memorandum of understanding:

- Street sweeping;
- Maintenance and grading of unsealed roads;
- Resurfacing and pothole patching of sealed roads;
- Cleaning and reprofiling of open drains;
- Litter pick up and disposal;
- Inspecting and maintenance of side entry pits and underground drains;
- Supply/installation and/or repair and/or replacement of pits, pit lids, lintels and underground drains;
- Maintenance and management of all street signs associated with traffic control for through movements;
- Line/pavement marking; and
- Maintenance of kerb & channel;

Responsible Road Authority (Manningham) is to be responsible for the following within its own municipal district:

- Vegetation management, including tree pruning;
- Serving of statutory notices on property owners;
- Footpath maintenance;
- Management of domestic stormwater connections;
- Issuing of permits and supervision of works in relation to drainage works, road openings, water tapings and vehicle crossings;
- Maintenance and management of all street signs not associated with traffic control; and
- Maintenance of all street furniture

Responsibility for the following is to be negotiated on a case-by-case basis but generally evenly shared:

MANNINGHAM CITY COUNCIL PUBLIC ROADS REGISTER
