

A guide to solar and batteries

By partnering with Solar Savers, we're making it easier for Manningham households to install solar and battery solutions.

Discover what support is available and how it all works.

Why install a solar system and batteries?

By installing rooftop solar, you can reduce your energy bills and power your home with clean renewable energy from the sun. In doing so, you'll reduce your reliance on the grid, lowering your power bills.

Batteries let you store excess solar energy to use on cloudy days or at night. This way, you can stay powered by solar – rain, hail or shine.

How can Council help?

We provide:

- **Information and tools:** Our resources will help you plan your switch. Visit manningham/vic.gov/electrify-your-life for details.
- **Events and information:** We hold regular information sessions so you can learn more.
- **Free advice and quotes through Solar Savers:** We've partnered with Solar Savers, a local government initiative. Through Solar Savers you can access advice, a trustworthy quote, eligibility for discounts, and support to install a solar system or batteries.
- **Extra discounts ending mid 2025.**

What discounts are available?

Manningham residents may be eligible for:

Solar

- A Victorian Government rebate up to \$1,400 and an interest-free four-year loan of \$1,400 (\$29 monthly repayment)
- Federal incentives are also available to reduce the cost of solar

Battery storage*

- A Victorian Government interest-free four-year loan of \$8,800 (\$184 monthly repayment)

*Eligibility requirements apply. Discounts vary depending on the specifics of your solar and/or battery system.
