Declared Arterial Roads

VicRoads is generally responsible for the roadway, roadside (including any ancillary area designated by VicRoads eg. rest stops, scenic lookouts), and any road-related infrastructure (eg. table drains, kerb & Channel) for the full width of the road reserve, other than service roads, off road bicycle paths and pathways, as generally shown on the Road Management Act Code of Practice for Operational Responsibility for Public Roads.

Council is responsible for service roads, off road bicycle paths, pathways, associated local signage, and underground drainage that is part of a municipal drainage scheme, in accordance with the Road Management Act Code of Practice for Operational Responsibility for Public Roads.

Arterial Highways Urban Roads

(VicRoads is the nominated responsible Road Authority for the following roads)

Road ID	Road		Length (m)	Width (m)	Surface Type	Classification	Date Constructed	Date Made Public	Comments/ Amendments
RD56	Bulleen Rd - Manningham Rd to Trinity School entrance		1500	21.9	Asphalt	Arterial Highways Urban Roads	1/01/1960		
RD57	Bulleen Rd - Trinity School Entrance to Eastern Freeway		645	22.8	Asphalt	Arterial Highways Urban Roads	1/01/1960		
RD58	Springvale Rd - Eastern Freeway to Worrell St		190	12	Spray Seal	Arterial Highways Urban Roads	1/01/1960		

VicRoads is responsible for all components of the declared arterial road that are provided for the operation of through traffic, as generally shown on the Road Management Act Code of Practice for Operational Responsibility for Public Roads. These include

- Any part of the roadway located 'kerb to kerb' that could be made available for through traffic;
- Shoulders (sealed or unsealed) where there is no formal designated parking;
- On-road bicycle lanes;
- kerb and channel, or table drains, adjacent to any part of the roadway that could be made available for through traffic;
- Drainage pits and underground drainage collecting runoff from through carriageway and associated junction pits in medians, outer separators and through carriageways
- All road markings on the through carriageways (but excluding parking bays);
- Plantation reserves where VicRoads holds the title;
- Guard fence where the guard fence is for the safety and protection of through traffic;
- Signs and delineation provided for the control and guidance of traffic on traveling along, or entering, the through carriageways of the arterial road (whether located in either the central median, outer separator or roadside), plus clearway signs;
- Central medians and any VicRoads assets or vegetation thereon, including pedestrian fencing and Tactile Ground Surface Indicators (TGSIs);
- All traffic signals and electronic traffic signs including variable speed signs,
- Other on-road electrical assets for traffic management on the arterial road; and
- Any ancillary area designated by VicRoads as the responsible road authority.

Council is responsible for all local components of the road system as generally on Schedule E of Manningham's Road Management Plan. These are:

- Service road traffic lanes and shoulders;
- Pathways outside of through carriageways and central medians;
- Indented parking bays and any other part of the roadway located 'kerb to kerb' that could not be made available for through traffic (being located either on the side of the road, in the outer separator or in the central median), and adjacent kerb and channel;
- Drainage pits and underground drainage outside of through carriageways or outer separators and underground drainage that is part of a municipal drainage scheme
- Off road bicycle paths;
- Off road furniture at bus stops;
- Road markings for all parking bays, plus road markings on service roads;
- Outer separators and roadside, including any council assets or vegetation planted thereon nature strips including vegetation;
- Local signage including street name signs, local direction signs, parking signs for the control of stopping or parking in accordance with Part 12 of the Road Rules (but excluding clearway signs), and advance warning (but not advance direction) signs on local roads;
- Pedestrian fencing outside of central medians;
- Tactile Ground Surface Indicators (TGSIs) in footpaths and kerb ramps and at bus stops (except at central medians); and
- Plantation reserves where council holds the title.

The nominated Council (referred to above) is generally responsible for the following levels of service as part of an agreed memorandum of understanding:

- Street sweeping;
- Maintenance and grading of unsealed roads;
- Resurfacing and pothole patching of sealed roads;
- Cleaning and reprofiling of open drains;
- Litter pick up and disposal;
- Inspecting and maintenance of side entry pits and underground drains;
- Supply/installation and/or repair and/or replacement of pits, pit lids, lintels and underground drains;
- Maintenance and management of all street signs associated with traffic control for through movements;
- Line/pavement marking; and
- Maintenance of kerb & channel;

Responsible Road Authority (Manningham) is to be responsible for the following within its own municipal district:

- Vegetation management, including tree pruning;
- Serving of statutory notices on property owners;
- Footpath maintenance;
- Management of domestic stormwater connections;
- Issuing of permits and supervision of works in relation to drainage works, road openings, water tapplings and vehicle crossings;
- Maintenance and management of all street signs not associated with traffic control; and
- Maintenance of all street furniture

Responsibility for the following is to be negotiated on a case-by-case basis but generally evenly shared:

- Capital Works undertakings;
- Major refurbishment works; and
- All other matters related to the road
